Project management, Regional Business Management, Engineering Consulting.

---

Accounting, Legal, and Operating consultancies.

Financial management of the firm.

---

Business development.

Smooth, planned, and agile handovers.

---

Lamansys is supported by UNICEN;  
one of the most prestigious universities  
in Argentina.

# Staff Augmentation

---

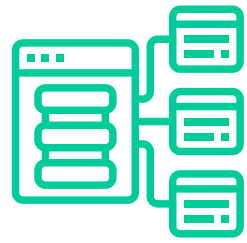

Expand your engineering team. Speed up projects.

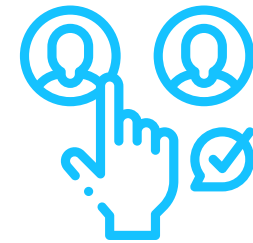

Staff works directly with the client 's internal team.

Easy incorporation of external talents to full internal shortages.

Cost reduction during hiring and employee training.

Internal Resource Management  
and Recruitment.

Internal selection processes  
and with the client.

Technopole that allows teams to work with rapid and agile scalability on specific human resources.

Extensive networking opportunities. Since we are a Spin-off from UNICEN, for the last couple of years our programmes have opened the door for the best talents coming from the System Engineering career.
