

# IT SOLUTIONS

LAMANSYS  
REALISE YOUR IDEAS

# Software Factory

---

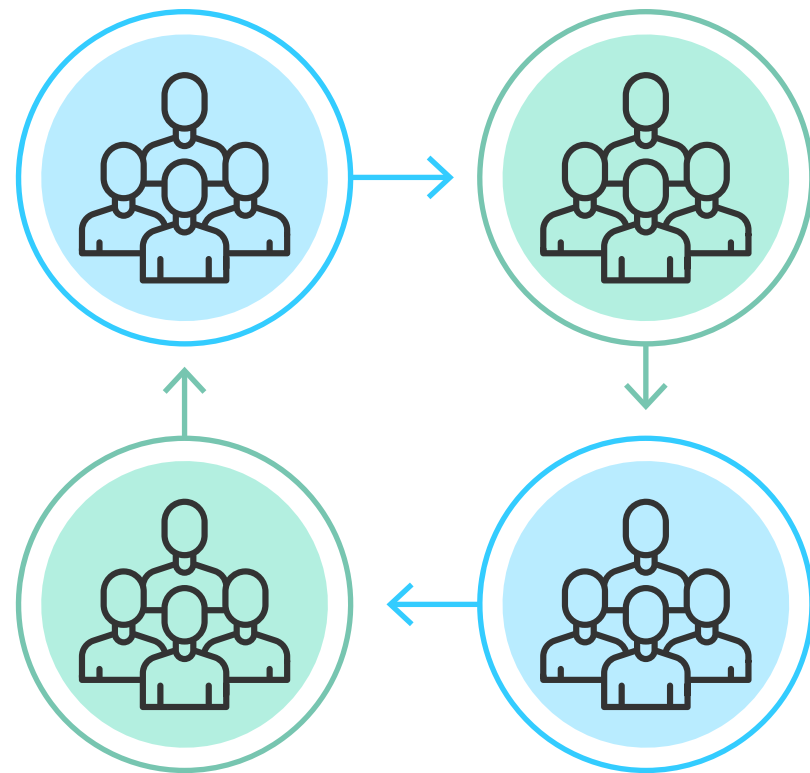

From requirement gathering to go-live.  
Design of a clickable wireframe which expedites cost estimations and the project's scope.

Clickable wireframes for a better user experience.  
Cutting edge technologies usage, High-performance Teams, Optimal Infrastructure,  
Databases definitions, and more.  
Agreements with clients according to their needs regarding time and budget.

# Agile POD

---

**Small, flexible, self-organized, multi-functional and multidisciplinary teams that work cohesively.**

Each POD develops a relationship with the client that increases the understanding of the business ecosystem.

Each POD focuses on a specific set of tasks.

---

Project ramp-up and client's swift and agile integration into the corporate culture.

---

Metrics and periodic reports on teams performances and project development.

---

**Ongoing** teams follow up and support from Lamansys' Architects, Tech Leads, DBAs, and DevOps.
